

MAT ARM

Designed to precisely handle and position wood or composite mats up to 40' long and 12" thick using the DECKHAND XS, S, DH4, and 5HP head units

- Utilizes interchangeable tines to handle 3', 4' and 5' mats
- Sensors allow operator to monitor arm grip status while moving mat
- Load locking valve system ensures mat is never dropped
- Mats can be lifted from an off-center position
- Mats can be placed with precision under total operator control
- Positive grip allows dirt and debris to be shaken off mats during removal
